PHANTOM PATROL WAGON

Strange Story of a Body That Lies in the Baltimore Morgue.

Only Tangible Thing in Connection With the Mysterious Affair Is the Very Decidedly Genuine Corpse.

Saltimore, Sept. 28.-There is a body at the city morgue which was received at 2:45 o'clock Wednesday afternoon, under the name of Theodore Gorman. Nothing else is known about the man. The attendant says that he received the body in an almost nude condition from the central district patrol wagon, and that the driver told him the name was Theodore Gorman, but the other particulars could not be ob tained from Coroner Hill, who also had the man's clothes.

The attendant says he is positive about the above facts; that he knows the driver of the wag on, and could not be mistaken in him. The attendant also says that the body looks as if the man died of arsenical poison, but he referred the reporter to Coroner Hill for further information.

Dr. Alexander Hill, the coroner, was seen by a reporter, but he absolutely and positively denied knowing anything whatever about the man, and as for his clothes, he

Eaid, he had never seen them.
"The central district," said Dr. Hill, "will give you all the information you want." But the same lack of knowledge was manifested by the police on the subject. Moreover, it was said that the record showed that the wagon had not been out

When told that the keeper of the morgo said he knew Officer Gaffney and that the wagon had two horses attached to it Lient. Busick said that Officer Gaffney was at his dinner at the hour mentioned and, although the central wagon is the only one in the city- with two horses, it was not out at that time, and therefore the morgue keeper could not have received the body from it.

Inquiry at the other police districts failed to throw any light on the mystery every one denying that they had sent the body to the morgue. The morgue keeper said that he had heard, after re received the body, that it was found on Greennount avenue, between Madison and Truxton streets, but he could not say it was a

Inquiry in the neighborhood revealed a dense ignorance of anything relating to the matter. The attendant says be has the body; that it looks like that of a German, and that he would really like to made inquiries at the morgue for the body

Race Believed to Lie Between the Two Speedy Western Cracks, Clifford and Flying Dutchman.

(Special to The Times.)

New York, Sept. 28.- The second spe cial is to be run at Gravesend to-day. There is much disappointment that Henry of Navarre and Domino do not show among the list of starters, but the race will be a grand one, even without them.

While the race looks to be at the mercy of Clifford, there are many old raceborse men who predict that he will bave to go a fast mile and an eighth to beat that other game and speedy Western animal, Flying Dutchman. The latter has shown himself to be a great horse, am with 100 pound up as against 117 for Chifford, it is thought

he will stard a splendid chance to win.

Ramapo, with 122 pounds, is also in the race. He is in good form and may make trouble for all of the other starters. Rey El Santa Anita and Sir Excess are also

Patchen and Gentry are having it turn about these days. Yesterda'y was Patchen's day. He won his race at Sioux City, and pacet the second heat down to his record, 2:04.

There can be little doubt that the once great mare, Alix, has gone backward for good. Her effort at Springfield yesterday to beat her record resulted in her again pulling up a cripple. She did the mile in 2:13 3-4, ten seconds behind her mark.

The new track at Sheffield, Ind., is to be opened this afternoon. This track in a mesaure will fill the place of the defunct Roby. It is said the Indiana authorities will not interfere with it.

There does not seem to be much difference between race track men, whether they be supporters of the harness horse or devotees of the bang tail. A great deal has been said of late about the determination of certain inrunning turf. Among the much touted reformers the names of several prominent gen tlemen of Philadelphia have been frequent ly mentioned. A few weeks ago the Belmont association created a great ado about a race for a \$4,000 purse for which Joe Patchen

and John R. Gentry were to pace. The Belmont folks worked this event as their strongest card. When the race came off some of the virtuous souls of the Belmont body got it into their heads that Curry, the driver of Patchen, and McHenry, the driver of Gentry, had fixed a job by which Gentry was to win, and they were deeply

put behind Patchen. This was all good as as far as it went. But now it appears that there was no purse offered for the race at all, and that the Belmont outfit had simply agreed to give Curry and McHenry a share of the gate receipts for exhibiting their horses. Curry and McHenry got about

The recent offer of \$60,000 made by Mr. John Hunter to Milton Young for the stal lion Hanover has created quite a ripple among horsemen, and has led to the piling of some interesting horse statistics. This is said to be the largest sum ever ten dered for an American thoroughbred horse

St. Blais sold in this country for \$100, 000, but he was bred in England, while Hanover was foaled on American soil. Out-side of St. Blais no thoroughbred horse has ever been sold in America for as much as was offered for Hanover, as Ormonde though bought by an American citizen, was traded for in a foreign land. Mr. Forbes, another American paid \$73,000 for Imported Meddler, but he, too, was sold in England.

Washington sports predict a great future for Wilson and a better trial horse could not have been secured than Daly.

This preliminary, combined with the star event, should give the patrons of the E. A. C. the full worth of their money, Both McMillan and Gorman are stordy, strong fellows, and the battle will not be won or lost inside of fifteen or twenty rounds.

There is one thing sure. It will give a

great deal more satisfaction than the short fight between McMillan and his victim, Pat Raedy. McMillan will find Gorman a far more formidable opponent than he has been up against for some time. Both of the men have worked hard and faithfully for this contest and are in ex-

just at this time look exceedingly blue, so far as Dallas is concerned, it is altogether improbable that the Florida Athletic Club will give up the notion of bringing Corbett and Fitzsimmons together. It can hardly be expected that so far as the money making goes the affeir will pan out what it would have at Dallas with the Texas State fair to back it up; but there would be a big profit in it almost anywhere at any time that it could be pulled off without hindrance, and now that Stuart and the club are pretty deeply in the hole they may be looked to to strain every perve to find a place for the fight that they may make good their loss.

The hope expressed by some of the ring followers in this city yesterday that when Gov. Culberson gets his legislature together there may be enough members friendly to the big fight to prevent action such as the seems to be a vain one.
